“Sacred Tunes and Hymns”

Containing a Special Collection of a Very High Order
of Standard Sacred Tunes and Hymns

Novel and Newly Arranged

NOTHING LIKE IT ON THE MARKET

Copyrighted by J. S. JAMES, 1913

PREFACE.

There are many music books in existence in this country, which are claimed to contain sacred songs and hymns and suitable for the churches of the various denominations, but which are not such a collection as should be used in the churches or other worshipping assemblies. This volume, "Sacred Tunes and Hymns," is presented to the musical public and singing people of the country, with the hope and desire that it will prove meritorious and fill a long-desired needed place in our sacred song service of valuable music and hymns. It is specially arranged so its compositions can be easily played on instruments as will appear on each of the pages of the music. It will be easily understood in the arrangements of this song book, that it is suitable for church worship of all kinds, Sunday-schools, singing conventions, and all other musical assemblies or gatherings, which have for their purpose the promotion and installation of religious sentiment, character, and can be used and relied upon with an assurance that it contains a very valuable selection of sacred hymns and tunes. It is believed by the author, that it will be helpful to the religious people, not only in the worshipping gatherings, but in the music of the home. It certainly will aid when used, in keeping alive and in operation, the best sacred tunes and hymns.

We should not close this preface or partial explanation, without mention of the valuable service rendered in getting out this volume, by that distinguished musician and Christian gentleman, Prof. S. M. Denson, of Helicon, Ala. Not only does he deserve the statements above of his high standing, but as a lover of music and the teaching of sacred songs and hymns in Georgia and Alabama, within the last forty years, none have excelled him. As a composer of real sacred tunes and the training of the voice and instilling the development of sacred music, he stands at the top of the ladder. Thousands of people have been taught the principles of music and probably more of sacred songs than any teacher of his age in the Southern States. Much of the arrangements of this volume is due to him and his watchful care in presenting this song and tune book and upon which the religious people of the country can rely for religious services for all purposes.
