La obra, concebida a partir de los ricos recursos del Levante Español, refleja las características de los cuatro grandes bloques musicales presentes en el folklore Murciano: La primera secuencia, Pasacalles, recrea las músicas de Navidad realizadas por Las "Cuadrigas"; la segunda secuencia, Aurora en la Huerta, muestra la sonoridad grave y majestuosa de los "Auroros"; la tercera secuencia, En la mina, hace referencia a los Cantes del Levante, al drama y dureza del trabajo minero; la cuarta y última secuencia, Baile de Puja, es una cita obligada a la música de baile y sus estilos más populares.
